

GF00.20-P-0003-06A	Active Service System (ASSYST) survey model/engine/sensor/instrument cluster		n
--------------------	---	--	---

The table below (status: March 1999) lists the various vehicle models with the different engines and the different oil level sensors.

In addition, the table also indicates whether an instrument cluster with multifunction display is fitted.

Model	Engine	Oil level sensor	Multifunction display with engine
129	112, 113	Oil sensor (oil level/temperature/quality, B40)	-
	103, 104, 119, 120	Oil level indicator switch S43	-
140	-	Oil sensor (oil level/temperature/quality, B40)	-
	104, 119, 120, 606	Oil level indicator switch S43	-
163	112, 113, 612	Oil sensor (oil level/temperature/quality, B40)	-
	111	Oil level indicator switch S43	-
168	166, 668	Oil sensor (oil level/temperature/quality, B40)	-
	-	Oil level indicator switch S43	-
170	112	Oil sensor (oil level/temperature/quality, B40)	-
	111	Oil level indicator switch S43	-
202	112, 113, 611	Oil sensor (oil level/temperature/quality, B40)	-
	104, 111, 601, 604, 605	Oil level indicator switch S43	-
208	112, 113	Oil sensor (oil level/temperature/quality, B40)	Engine 112
	111	Oil level indicator switch S43	only H and Gulf States: engine 111
210	112, 113, 611	Oil sensor (oil level/temperature/quality, B40)	Engines 112,113
	104, 111, 602, 605, 606		Gulf States, I , H : on all engines fitted; others: engines 602, 606 for E in addition engine 605LA
