Modification notes

12.5.04	Products by AUTOGLYM were removed. Products by WÜRTH were recently added.		
---------	--	--	--

The products by the following companies listed in the updated attachment are available to you for the conditioning of second-hand vehicles, in addition to the MB car care products: MEGUIAR S, OLMO, POLYTOP, SONAX, and Würth.

These products for vehicle conditioning have been tested in the used vehicle unit of our workshops and can be recommended as particularly suitable products.

Note: the approval for the products by AUTOGLYM remains valid until 31.12.2004.

The products listed in the attachments are not intended for customer application.

-
- D Immediate and direct delivery of all ordered materials and materials tested by DC.
 - D Deliveries of up to 3 issues of the material-specific guideline that was coordinated with DC, GSP/TPS.
 - D This processing guideline has to be supplied no later than with the first supply of materials in the required national language.
 - D All questions related to safety, health, and environment for the particular country are clarified by the supplier, who also ensures that the regulations are met.
 - D Advice and local support from specialists in problematic cases or due to a general requirement by the MB workshop.
 - D Regular workshop support service by a specialized consultant from the companies listed above, e.g. on a monthly basis.

As soon as there are changes in the product range of the listed manufacturers, we will keep you updated via Service Information.

It is mandatory to use only the products of the DC care line for warranty and goodwill works.

MEGUIAR S

Mr. Henning Telephone +49 (0) 800 6348427
Fax +49 (0) 800 5455450
E-mail henning@meguiars.com
Internet http://www.meguiars.com

OLMO

Ms. Teschner Telephone +49 (0) 2373 978715
Fax +49 (0) 2373 978730
E-mail mail@olmo.de
Internet http://www.olmo.de

POLYTOP

Mr. Brade Telephone +49 (0) 6103 84011
Fax +49 - (0) 6103 84060
E-mail brade@polytop.de
Internet http://www.polytop.de

If your company subcontracts the polishing and care works to other companies, you should refer to the supplementary service listed here to ensure that the materials that have been tested in practice by GSP/TPS (passenger car product technology) in the second-hand vehicle unit are being used and thus provide the corresponding quality.

In addition to the supply of materials, the following free services were also agreed upon with the suppliers:

- D Advising and support includes both MB and other vehicles.
- D Advice on contents and service of the service care package, as well as supply of materials, are provided by the specialized consultant of the companies listed above or their local partners.

-
- D Advice and support from specialists in issues such as environmental protection or occupational safety regarding the materials supplied by the companies listed above.

- D The listed services do not depend on minimum order quantities.

The pricing agreements are to be made directly with your local partner; we cannot do this for reasons of competition legislation.

We recommend that you have an expert present and introduce the materials and finishing processes that might be used by the workshop.

You can place orders directly with the partner responsible. You can find your local contact person in the addresses listed below:

SONAX

Mr. Hofmann Telephone +49 (0) 8431 53341
Fax +49 (0) 8431 53369
E-mail werner.hofmann@sonax.de
Internet http://www.sonax.com

WÜRTH

Mr. Zwoboda Telephone +49 (0) 7940 151840
Fax +49 (0) 7940 154944
E-mail frank.zwoboda@wuerth.com
Internet http://www.wuerth.de

The following contact persons from GSP/TPS are available, if you have further technical or organizational questions:

Mr. Gimpl Telephone +49 (0) 7031 9070702
Fax +49 (0) 7031 903545
E-mail michael.gimpl@daimlerchrysler.com
